FAISAL FARUKH SAYYED

ASPIRING DATA ANALYST

Pune, Maharashtra | +91 8446042585 | mr.faisalsayyed07@gmail.com
linkedin.com/in/faisal-sayyed-99188237b | github.com/Nobita-0777

PROFESSIONAL SUMMARY

Detail-oriented IT graduate (B.Sc. Computer Science, 2026) with hands-on experience in Python, SQL, Power BI, and Excel for data analysis, reporting, visualization, and automation. Built a retail analytics platform with an AI-powered forecasting engine and an interactive Power BI sales dashboard, demonstrating strength in reporting automation, predictive analytics, and data visualization. Strong analytical thinking, problem-solving, and communication skills, with a quick-learning mindset ready to contribute as a Data Analyst from day one.

CORE SKILLS

Business Intelligence & Dashboarding (Power BI) • Advanced MS Excel (Pivot Tables, VLOOKUP, Formulas, Power Query) • SQL Querying, Joins & Query Optimization • Data Cleaning & Preprocessing • Predictive Analytics & Demand Forecasting • Report Automation & KPI Tracking • Dashboard & Data Visualization Design

TECHNICAL SKILLS

Languages/DB: Python, SQL (MySQL)

BI & Reporting: Power BI, DAX, Power Query, MS Excel (Pivot Tables, VLOOKUP, Dashboards)

Techniques: Data Cleaning, Data Visualization, Query Optimization, KPI Tracking, Predictive Modeling

Also Familiar With: HTML, CSS, JavaScript, PHP

PROJECTS

RetailFlow AI — AI-Powered Retail Management & Analytics Platform

Personal Project | *Python, MySQL, PHP, JavaScript, Chart.js* | github.com/Nobita-0777/RetailFlow-AI

- Built a retail management system with role-based access (Admin/Staff) covering sales, inventory, billing, and customer data on a relational MySQL database.
- Engineered an AI Forecasting module predicting 7- and 30-day product demand from sales velocity, auto-generating a prioritized restock queue.
- Built an AI Insights engine and Chart.js analytics dashboard with real-time KPIs, plus a Reports module and GST-compliant billing system.
- Optimized SQL queries and table structures, and added CSV export/print-ready reporting, to keep dashboards fast and shareable at scale.

Blinkit Sales Dashboard

Power BI, Excel, Power Query, DAX

- Built an interactive Power BI dashboard analyzing sales, profit, quantity, and discount across cities and outlet types, with KPI cards and a profit-target gauge.
- Used Power Query for data cleaning and DAX for calculated KPIs; added city/date filters and donut, bar, and trend-line visuals for outlet, item, and monthly analysis.

EDUCATION

B.Sc. Computer Science — ASM CSIT College, Pimpri, Pune (SPPU) | 2026 | 7.63 CGPA

Relevant Coursework: Database Management Systems, Data Structures, Web Technologies, Statistics & Data Analysis

HSC — Science Stream (PCMB) — S.B. Patil Science & Commerce College, Ravet, Pune | 2023 | 57.50%

SSC — Maharashtra State Board — Lions Club English Medium School, Dehuroad, Pune | 2021 | 68.80%

KEY HIGHLIGHTS

- Strong foundation in data analysis using Python and MySQL for database querying and management.
- Proficient in building interactive dashboards and reports using Power BI and Microsoft Excel for business insights.
- Hands-on experience translating historical data into predictive, AI-driven decision-support tools.
- Demonstrated leadership and team management skills through academic group projects and activities.

SOFT SKILLS

Communication • Leadership • Team Management • Problem Solving • Analytical Thinking • Decision Making
